Dear Mr Warburton

### **Request for information 2020-190**

I refer to your request for information dated 23 November 2020, which was received by Greater Wellington Regional Council (Greater Wellington) on 23 November 2020. You have requested the following:

*“In its Feb 2020 response to my request for information GWRC indicated that: “There are no available TGM maps showing final reconnection alignments – they will become available when earthworks are completed and more detailed planning can commence.”*

*Can you please advise if Park Access plans are now available and if so provide me with a copy.”*

### **Greater Wellington’s response follows:**

Your request is refused under **section 17(g) Local Government Official Information and Meetings Act 1987** as the information requested is not held by Greater Wellington as it does not exist.

Greater Wellington has no additional information and therefore there are no further available maps for the Transmission Gully Motorway showing final reconnection alignments. COVID-19 has resulted in delays related to the project which is currently estimated to be completed in September 2021. This has resulted in further delaying detailed work related to the completion of park access and connection plans.

If you have any concerns with the decision(s) referred to in this letter, you have the right to request an investigation and review by the Ombudsman under section 27(3) of the Local Government Official Information and Meetings Act 1987.

Yours sincerely

A handwritten signature in blue ink, appearing to be 'AC' or similar initials, written in a cursive style.
