Dear James,

**The information you requested - CAS-207174-M3C8J4**

Thank you for your request for information dated 2 September 2020 about CCTV footage requests and locations of cameras.

There are four cameras operating on Sandringham Road, between Balmoral Road and New North Road.

	Camera location	Name of camera
1.	Intersection of Sandringham Road, St Lukes Road and Balmoral Road	2202 Sandringham Rd Balmoral Rd
2.	The intersection of Sandringham Road and Reimers Ave	Sandringham Reimers
3.	intersection of Sandringham Rd and Walters Road	Sandringham Walters
4.	intersection of Sandringham Rd, New North Rd, and Bond St	2154 New North Sandringham.

The coverage of the above camera's changes based on peak travel times, and if the cameras are being used to monitor incidents on the road. There is no set angle of coverage. All four cameras can cover all roads at those intersections.

There are 41 cameras at Kingsland Station. All cameras at stations are there for safety and for the protection of AT assets. The coverage of these cameras changes daily based on peak times and are moved and turned when incidents occur on the tracks or at the station. There is no fixed coverage for these cameras. Cameras that do have fixed coverage are cameras that would point into public places. Camera coverage can only cover the station and its assets.

Location and camera name at Kingsland Station
Kingsland 1 – East End (Not Fixed)
Kingsland 2 – Exit (Fixed)
Kingsland 3 – East Canopy (Fixed)
Kingsland 4 – East (Fixed)

Kingsland 37 – Mid Canopy (Fixed)
Kingsland 38 – East Canopy (Fixed)
Kingsland 39 – East Canopy (Fixed)
Kingsland 40 – East Canopy (Fixed)
Kingsland 41 – Exit (Fixed)

Unfortunately, we do not have a map with the positions of the cameras and an agency is not obliged to create information to answer an official information request. Therefore, this part of your request

is refused under section 17(e) of the Local Government Official Information and Meetings Act 1987 (LGOIMA), as the information does not exist.

On average, we can only guarantee footage is available five to seven days prior to the current date. Footage is not saved on a permanent basis. The cameras are continually rewriting over old footage. Each camera is different because footage will fill up faster on its drive in a place that has more movement.

I've attached our AT LGOIMA Guide which explains the process we follow. This guide covers Privacy requests as well, however, we follow the Privacy Act.

When a CCTV request is received, we try to protect the privacy of other people captured in the footage. When an incident is captured where the Police are involved or likely to be involved, our usual steps are to provide this footage directly to the Police as to not interfere with any current investigations. When first responding to your request for CCTV footage of your vehicle being broken into, we omitted to quote the section of the refusal under section 6(a) to maintain the maintenance of the law as there was potentially a criminal activity captured. Thank you for bringing it to our attention that we had not quoted a withholding ground relevant to your request, and we apologise for this oversight.

Should you believe that we have not responded appropriately to your request, you are able to make a complaint to the Office of the Ombudsman in accordance with section 27(3) of the Local Government Official Information and Meetings Act 1987 (LGOIMA), and seek an investigation and review in regard to this matter.

Yours sincerely

Phil Wratt
