James Scott

fyi-request-18434-79b4d130@requests.fyi.org.nz

Kia ora James,

The information you requested – CAS-504571-C2S6B3

Thank you for your request on 4 February 2022, regarding the installation of a camera on Sandringham Road.

Purpose:

The installation on Sandringham Road is to enable the remote enforcement of the Bus Lane. There will be a number of cameras and an extension arm installed on the poles to enable AT to remotely enforce this Bus Lane Zone.

Strategy:

- Auckland Transport is responsible for the compliance and enforcement of special vehicles lanes on Auckland arterial roads for bus lanes.
- Special vehicle lane enforcement for bus lanes is currently undertaken by AT employees who travel to site with a mobile camera to record vehicles who travel in the bus lane, within set parameters (i.e. vehicles other than a bus, motorcycle, cycle, or moped travelling for more than 50 metres during the hours of operation). This poses a few issues with respect to health and safety, and is a very labour-intensive process.
- Auckland Transport has a technology solution that enables the parking compliance team to automate and remotely enforce these special vehicle lanes:
 - This solution uses CCTV which streams back to AT systems, with clear images of vehicles (as per certain parameters) driving in the Bus Lane.
 - A warranted Parking Officer reviews these images and determines if an offence has occurred, then issues an infringement notice if required.

Authorisation:

This work is authorised via an approved business case with relevant AT's delegated financial authority. The business case which covers this zone on Sandringham Road is attached.

Should you believe that we have not dealt with your request appropriately, you are able to make a complaint to the Office of the Ombudsman in accordance with section 27(3) of the Act and seek an investigation and review in regard to this matter.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'R Jones'.
