Dear Warwick Ayres

OFFICIAL INFORMATION ACT REQUEST

I refer to your official information request of 23 February 2015, relating to the current legal status for importation of B+E Booster or Poultry Protect imported by GFS Bioprotect Ltd.

These products are listed on the 'Approved Maintenance Compounds (Non-Dairy) Register' publicly available at the link below:

<http://www.foodsafety.govt.nz/registers-lists/maintenance-compounds>

Extract from the register:

GFS BioProtect B & E Booster (Waste water treatment)
Approval Code C66

This wastewater treatment compound may be used in effluent treatment and waste streams where solid wastes are processed through solids recovery systems.

GFS BioProtect Poultry Protect (Sanitiser)
Approval Code C39

This may be used for cleaning and disinfection of poultry facilities and equipment used in the production and processing of eggs for human consumption.

The compound must be used according to the manufacturer's directions.

Poultry and eggs must not be present in the area at the time when cleaning and disinfection is carried out.

The link to the Approved Maintenance Compounds (Non-Dairy) Manual is below.
