Hi s9(2)(a), s9(2)(g)(ii)

We are currently repairing a MDRFD System that has come from s9(2)(b). The system is missing a Receiver due to extensive damage so the customer wants this replaced.

Normally when we need to replace a damaged unit we get it sent to us so that we can then show Customs that the new unit is a straight replacement for the damaged one. But this time we will be returning the system with one extra unit than what we initially received.

In this case would we need to create a new EUC for the replacement unit? I hope I haven't confused you too much ☺

Hi s9(2)(a)

Can you confirm with MFAT today that a new EUC would be required if we are shipping new units as replacements without actually receiving physical units back in NZ.

I would like to confirm this to inform s9(2)(a) of the need to get something signed.

Many thanks.

Hi s9(2)(a)

Thanks for bringing this to our attention. I have asked our s9(2)(b)(ii) division for an opinion. It is correct that your General Consent would cover the export. However, given the sensitivities s9(2)(b)(ii) we would want to evaluate the implications of such a sale before providing advice on whether to proceed. That could involve recommending against submitting an RfQ or revoking the General Consent and reissuing it with removed.
s9(2)(b)(ii)

In the interim it would assist us if you have any information you can pass on about the intended use of the equipment by s9(2)(b)(ii)

Hi s9(2)(a)

I will need to seek advice from our s9(2)(b)(ii) division and to consider the export control criteria, given we would be exporting to a conflict zone. I imagine Ministers would also need to be consulted on this if you were to proceed with an application, but let me consult internally first.

Hi s9(2)(a), s9(2)(g)(ii)

I hope you had a good weekend.

We have received a Request for Quote to supply Gunzen MK3 Computers to the s9(2)(b)(ii). Would there be any problems gaining an Export Licence?

I could see on your Website that they were on the s9(2)(b)(ii). Are they still on it? We sold BIRIS to s9(2)(b)(ii)

Hi [redacted]

Thanks for the email.

The equipment would not be temporarily exported. The initial equipment would be sold to [redacted] for use as demonstration and trials equipment. A follow on order for more equipment is expected once the trials are completed.

I understand that this won't be completed before Xmas. I look forward to hearing from you once you have an update.

We would need to look at this one closely. Before doing so, I would need some detail on what is meant by "domestic use only". That is, we would need a list of detailed scenarios that the equipment would be used for.

Hi s9(2)(a), s9(2)(g)(ii)

I hope you had a good weekend.

We have had interest from the s9(2)(b)(ii) for our JANUS Product.

The end user would be the s9(2)(b)(ii) and the end use would be for Domestic Use only.

s9(2)(b)(ii) are the agents for so we would sell and ship direct to USA and s9(2)(b)(ii) then on-sell to the s9(2)(b)(ii) s9(2)(b)(ii)

I'm not sure of exact quantities at this stage but word from s9(2)(b)(ii) is that the initial order would be quite small.

I look forward to your thoughts.

Hi [s9(2)(a)]

While we do have some human rights concerns, on balance we can give approval in-principle to the export of Gunzen Mk3 to [s9(2)(b)(ii)] for demonstration purposes and ultimately should a contract to supply be concluded.

A final determination to approve the export of this item as part of a contract to supply would be made at the time of application for an export permit. As such, should MAS look like concluding a contract [s9(2)(b)(ii)] MAS should inform us so that we can check to assess if there have been any changes to the current situation that would need to be factored into the final approval assessment process.
