II. Health information	II.a. Certificate reference No: 09854635	II.b.
------------------------	--	-------

Attestation of anti-parasite treatment:

- ⁽¹⁾either [(II.4. the dogs described in Box I.28 are destined for a Member State listed in Annex I to Commission Delegated Regulation (EU) No 1152/2011 and have been treated against *Echinococcus multilocularis*, and the details of the treatment carried out by the administering veterinarian in accordance with Article 7 of Commission Delegated Regulation (EU) No 1152/2011⁽⁹⁾⁽¹⁰⁾⁽¹¹⁾ are provided in the table below.]
- ⁽¹⁾or [(II.4. the dogs described in Box I.28 have not been treated against *Echinococcus multilocularis*⁽¹⁴⁾.]

Transponder or tattoo number of the dog	Anti-echinococcus treatment		Administering veterinarian
	Name and manufacturer of the product	Date [dd/mm/yyyy] and time of treatment [00:00]	Name in capitals, stamp and signature
s 9(2)(a)	Drontal Bayer	27/07/2015 15:35	s 9(2)(a)

Notes

- (a) This certificate is meant for dogs (*Canis lupus familiaris*), cats (*Felis silvestris catus*) and ferrets (*Mustela putorius furo*).
- (b) This certificate is valid for 10 days from the date of issue by the official veterinarian until the date of the documentary and identity checks at the designated Union travellers' point of entry (available at http://ec.europa.eu/food/animal/liveanimals/pets/pointentry_en.htm).
- In the case of transport by sea, that period of 10 days is extended by an additional period corresponding to the duration of the journey by sea.
- For the purpose of further movement into other Member States, this certificate is valid from the date of the documentary and identity checks for a total of four months or until the date of expiry of the validity of the anti-rabies vaccination or until the conditions relating to animals less than 16 weeks old referred to in point II.3 cease to apply, whichever date is earlier. Please note that certain Member States have informed that the movement into their territory of animals less than 16 weeks old referred to in point II.3 is not authorised. You may wish to inquire at http://ec.europa.eu/food/animal/liveanimals/pets/index_en.htm.

Part I:

- Box I.5: *Consignee*: indicate Member State of first destination.
- Box I.28: *Identification system*: select of the following: transponder or tattoo.
- In the case of a *transponder*: select date of application or reading.
- In the case of a *tattoo*: select date of application and reading. The tattoo must be clearly readable and applied before 3 July 2011.
- Identification number*: Indicate the transponder or tattoo alphanumeric code.
- Date of birth/breed*: as stated by the owner.

27 JUL 2015

Part II:

- (1) Keep as appropriate.
- (2) The declaration referred to in point II.1 shall be attached to the certificate and comply with the model and additional requirements set out in Part 3 of Annex IV to Implementing Regulation (EU) No 577/2013.
- (3) The evidence referred to in point II.1 (e.g. boarding pass, flight ticket) and in point II. 2 (e.g. receipt of entry to the event, proof of membership) shall be surrendered on request by the competent authorities responsible for the checks referred to in point (b) of the Notes.
- (4) Any revaccination must be considered a primary vaccination if it was not carried out within the period of validity of a previous vaccination.
- (5) The declaration referred to in point II.3.2 to be attached to the certificate complies with the format, layout and language requirements laid down in Parts 1 and 3 of Annex I to Implementing Regulation (EU) No 577/2013.
- (6) A certified copy of the identification and vaccination details of the animals concerned shall be attached to the certificate.
- (7) The third option is subject to the condition that the owner or the natural person referred to in point II.1 provides, on request by the competent authorities responsible for the checks referred to in point (b), a declaration stating that the animals have had no contact with animals of species susceptible of rabies and remain secure within the means of transport or the perimeter of an international airport during the transit through a territory or a third country other than those listed in Annex II to Implementing Regulation (EU) No 577/2013. This declaration shall comply with the format, layout and language requirements set out in Parts 2 and 3 of Annex I to Implementing Regulation (EU) No 577/2013.
- (8) The rabies antibody titration test referred to in point II.3.1:
- must be carried out on a sample collected by a veterinarian authorised by the competent authority, at least 30 days after the date of vaccination and three months before the date of import;
 - must measure a level of neutralising antibody to rabies virus in serum equal to or greater than 0.5 IU/ml;
 - must be performed by a laboratory approved in accordance with Article 3 of Council Decision 2000/258/EC (list of approved laboratories available at http://ec.europa.eu/food/animal/liveanimals/pets/approval_en.htm);

Annex 1: Declaration for purpose/nature of journey by owner or the natural person responsible for the animal(s) on behalf of owner (referred in superscript ⁽²⁾ of clause II.1 of the Export Certificate template).

DECLARATION

I, the undersigned

s 9(2)(a)

[owner or the natural person who has authorisation in writing from the owner to carry out the non-commercial movement on behalf of the owner⁽¹⁾]

Official Veterinarian check sheet

Requirements	Comments
The required documentation has been received: <ul style="list-style-type: none"> AWEC application (signed original) Supporting declaration from owner/veterinarian (signed original) Container measurement form (if required) 	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/>
The container meets all relevant IATA requirements: <ul style="list-style-type: none"> The container has been constructed using adequate materials and methods to ensure it is robust enough to safely contain the animal and withstand the transport process. The interior of the container is smooth, with no protrusions. Spacer bars are present along the middle of both long sides of the container and ensure that adequate ventilation will be maintained. The floor is solid and leak-proof. The door forms the whole of one end of the container. The door is constructed so that it is strong enough to prevent being distorted by the animal and accidental opening is prevented. Ventilation is provided by an entire end of the container (covered in bars, welded mesh or expanded metal) plus ventilation holes on the upper region of the other three sides of the container. All openings are nose and paw-proof. 	<input checked="" type="checkbox"/>
The animal(s) can turn around normally when standing, stand and sit erect, and lie in a natural position when inside the container.	<input checked="" type="checkbox"/>
The animal(s) is not excessively stressed when enclosed in the container.	<input checked="" type="checkbox"/>
Although not measured and calculated, the ventilation appears sufficient and consistent with the IATA recommendations (≥16% of the surface area of the four sides of the container) and this is supported by calculations done by the exporter (or preapproved commercial type).	<input checked="" type="checkbox"/> Cage Type: PP SD
The water bowl(s) is of a sufficient size and in a suitable position for the animal. It is able to be filled from the outside.	<input checked="" type="checkbox"/>
The container is labelled appropriately (name and contact details of owner, ≥1 'live animal' label, red or black 'this way up' labels on all four sides).	<input checked="" type="checkbox"/>
Additional requirements for the animal(s) were taken into consideration (eg regarding species, breed, health status, body condition, etc as applicable). Is breed susceptible to brachycephalic syndrome? Yes / No Has size and ventilation of the container has been increased appropriately? Yes / No / NA Instructions attached Yes / No / NA	<input checked="" type="checkbox"/>
The animal is assessed as fit to travel on the proposed journey, based on my inspection and a veterinary letter regarding the animal's relevant medical history and current medication.	<input checked="" type="checkbox"/>
