**Subject:** Tertiary student fares

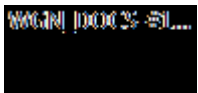

Hi

I understand you are (or may be!) attending a meeting tomorrow night about student fares. I thought it might be helpful for you to have some information at your finger tips in case you are asked questions, so the attached document is a brief summary of:

- Our costing of a tertiary discount
- The history of the student discount in Auckland
- The student discounts available around the country.

Our next report on the fare structure will go to the Economic Wellbeing Committee in early April. Officer advice to date on a student discount has been to focus on the possibility of a bulk purchase scheme, or on an off-peak fare available to everyone.

We have promised the community that we will undertake another round of consultation on the final fare structure, but we are still evaluating the options for when this should occur - one option would be to include the consultation on the Regional Public Transport Plan later in the year / early next year, or we could consult on some of the different parts of the fare structure separately as final proposals are clarified.

Regards  
Tass
