> Attached is a proposed outline of the workshop on the guidance  
> document proposed for next week. It has been planned for Insurers and  
> their project management offices. Council staff would be welcome - for  
> numbers it would be best to restrict to around 5 people per Council.  
> Could you please advise on who should attend from Christchurch City.

>

> You will also see there is provision in the programme to talk about  
> Variation 48 on flood levels. Is that something that you could  
> introduce and speak to briefly or should someone else within  
> Christchurch City talk to?

> Appreciate your feedback.

> Cheers
