### **OIA requests for information about birth registration**

Thank you for your Official Information Act (Act) requests received by the Department of Internal Affairs (Department) on 15 July 2022.

I have attached your requests at **Appendix A and B**, as they are too lengthy to include or summarise in this response.

As you are aware, you have been corresponding with the Department for a little over 12 months. During that time, you have corresponded with the Chief Executive, the Registrar-General of Births, Deaths and Marriages, the Department's complaint inbox, and via the FYI website.

The Department has endeavoured to respond to your correspondence and address your concerns. We have advised you that you appear to be under some misconceptions about the Department, birth registration and birth certificates.

I want to take this opportunity to reiterate that New Zealand birth certificates:

- are not linked to bonds or financial institutions
- only have reference numbers on the back for internal use by the Department — these are not shared with other agencies
- cannot usually be used on their own as proof of identity.

The Department registers births in New Zealand as required under the Births, Deaths, Marriages and Relationships Registration Act.

As the Department has made every effort to respond to your ongoing requests I am refusing your requests of 15 July 2022 pursuant to section 18(h) of the Act: that the request is frivolous or vexatious or that the information requested is trivial.

I consider your ongoing requests for information that the Department has repeatedly advised does not exist to be vexatious. This decision relates to the two requests outlined in the appendices only. Any subsequent requests for official information will be considered.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at [www.ombudsman.parliament.nz](http://www.ombudsman.parliament.nz) or freephone 0800 802 602.

I am requesting this information as it pertains to the following acts: Statute Law Revision Act 1888 (c3) and section 3 of the Statute Law Revision Act of 1948 (c62).

The Executors would have approached the probate court with a copy of the WILL and Death Certificate when those whanau passed away, i want to know all there is about their operations here.

The ambiguous way in which BDM and Registrar General Jeff Montgomery have set up documents, allows for an ambiguous recording, whereby alive or dead cannot be established. A Deliberate act of deception so legal plunder can occur of the ESTATES of the Maori people.

All information regarding the created birth documents, registration information, death and marriage documents and the probate process, evidence and consent they gave to the creation of the documents treating them all as TRUST property/RES/CORPUS of a trust. All paperwork with wet ink signature and permission to create a legal entity out of the information provided, the full size of the estate and all whenua taonga tuku iho attached to those estates.

If any entry does not exist for Angela Kay, then i request that you amend your records immediately, as requested previously; to show updated, accurate and not misleading information about me.

Yours faithfully,

Angela

## **Appendix B: Request 2 - Received 15/07/2022**

Dear Department of Internal Affairs,

Please provide all documentation, emails, notes, memos recorded, and or written that pertain to the consensus that is sent out every 7years, that assumes a person deceased and where no families members have claimed the deeds of that individual, which then gives legal excuse to the CROWN to claim the estate of that individual?

Native Right Holders are conveyed on paper as the ORIGINAL issue from the whenua taonga tuku iho, we are not TRUST property, yet that is what we are being conveyed as, because the use of the word RES-ident is a Trust term, The phrase Estate Trust let's you know that the Certificate of Live Birth is a Trust (res) that identifies an estate.

An identifiable thing, part of a district, not a man, woman or child.

Corporations being legal fictions, do not work loss or injury to any man; it is man often in the name of a legal fiction, who works loss injury to man.

It is one thing to create a legal fiction about One, and another to deny the existence of this legal fiction.

Yours faithfully,

Angela
