Hey Cam, have you got any updates for s9(2)(a) and me re covering Ministers while Grigg is on leave? Cheers

Just FYI Minister Upston has said her preference is to have one of us acting as both advisor and media (under women's portfolio) as opposed to having us both split between those roles. But unsure what McClays office wants! Thanks heaps

Sorry was just in a meeting. Off to induction on L8 now. Can I pop in afterwards at about 12:30?

Hi, u had a chat with Todd Mc about s9(2)(a) and s9(2)(a) (and vice versa) and think it would be a really good opportunity for them to spend time working for him and getting to know the portfolios. They're both very keen. What do I do down here or do I leave it for you to contact them to arrange what it looks like in practice?

Leave it with me. I'm pretty keen on at least one of them being placed in Hon Upston's office given she is getting your substantive portfolio. I also genuinely think they would learn a lot from the way her office operates that would be helpful for you once you get back.
